San Diego
Be Double Prepared

There is no way to predict when disaster or tragedy will strike. But you can be better prepared for the unexpected.

JMG SECURITY SYSTEMS presents a FREE public service seminar for schools and churches in the greater San Diego area.

Active Shooter Preparation & Response Tactics

The first portion of our seminar will be led by instructor Damon Blankenbaker who will provide numerous policy and procedural tips on how to prepare for an active shooter situation. His presentations cover how to react when the unthinkable happens and the profile of a shooter. Officer Blankenbaker has been teaching active shooter preparation in schools and churches for 15 years.

Crisis Management - Communications Planning & Protocols

You’ve done everything possible to prevent it. But without warning, the unexpected happens. Triggered by events out of your control you are faced with serious challenges that require immediate decisions. Come learn how you can better prepare to aid the injured, contact the authorities, communicate with parents, congregation, your staff and the media. Beth brings over 15 years of experience working with schools, non-profits, large companies and sports networks.

As a security company in Southern California, JMG SECURITY SYSTEMS, INC. wants to help educate schools, churches and synagogues on how to prepare for the unexpected.
